

About ODI

The Overseas Development Institute (ODI) is the UK's leading independent think tank on international development and humanitarian issues.

Our mission is to inspire and inform policy and practice which lead to the reduction of poverty, the alleviation of suffering and the achievement of sustainable livelihoods in developing countries.

We do this by locking together high quality applied research, practical policy advice, and policy-focused dissemination and debate.

We work with partners in the public and private sectors, in both developing and developed countries.
