

# Mobilising private development finance: implications for overall aid allocations

## Aid invested to mobilise private finance is expected to increase significantly

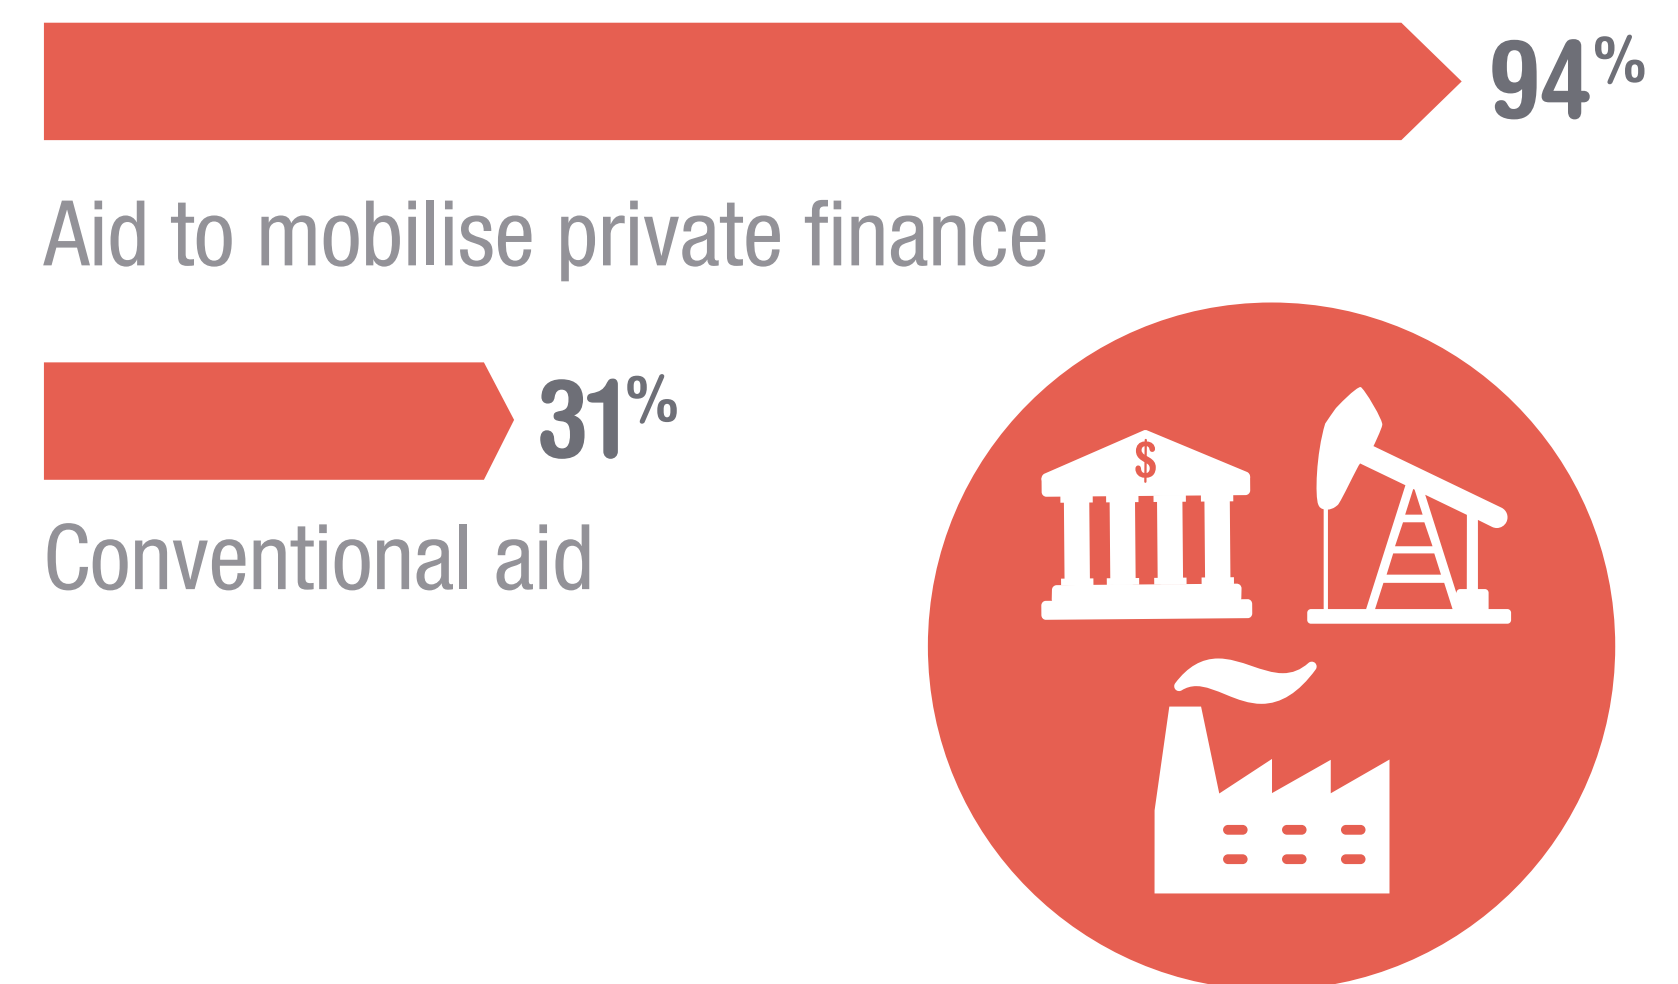

**64%** of organisations studied intend to maintain or scale up aid to mobilise private finance

The projected increase in this investment in aid may divert \$1.1-\$5.9bn away from social and humanitarian sectors\*

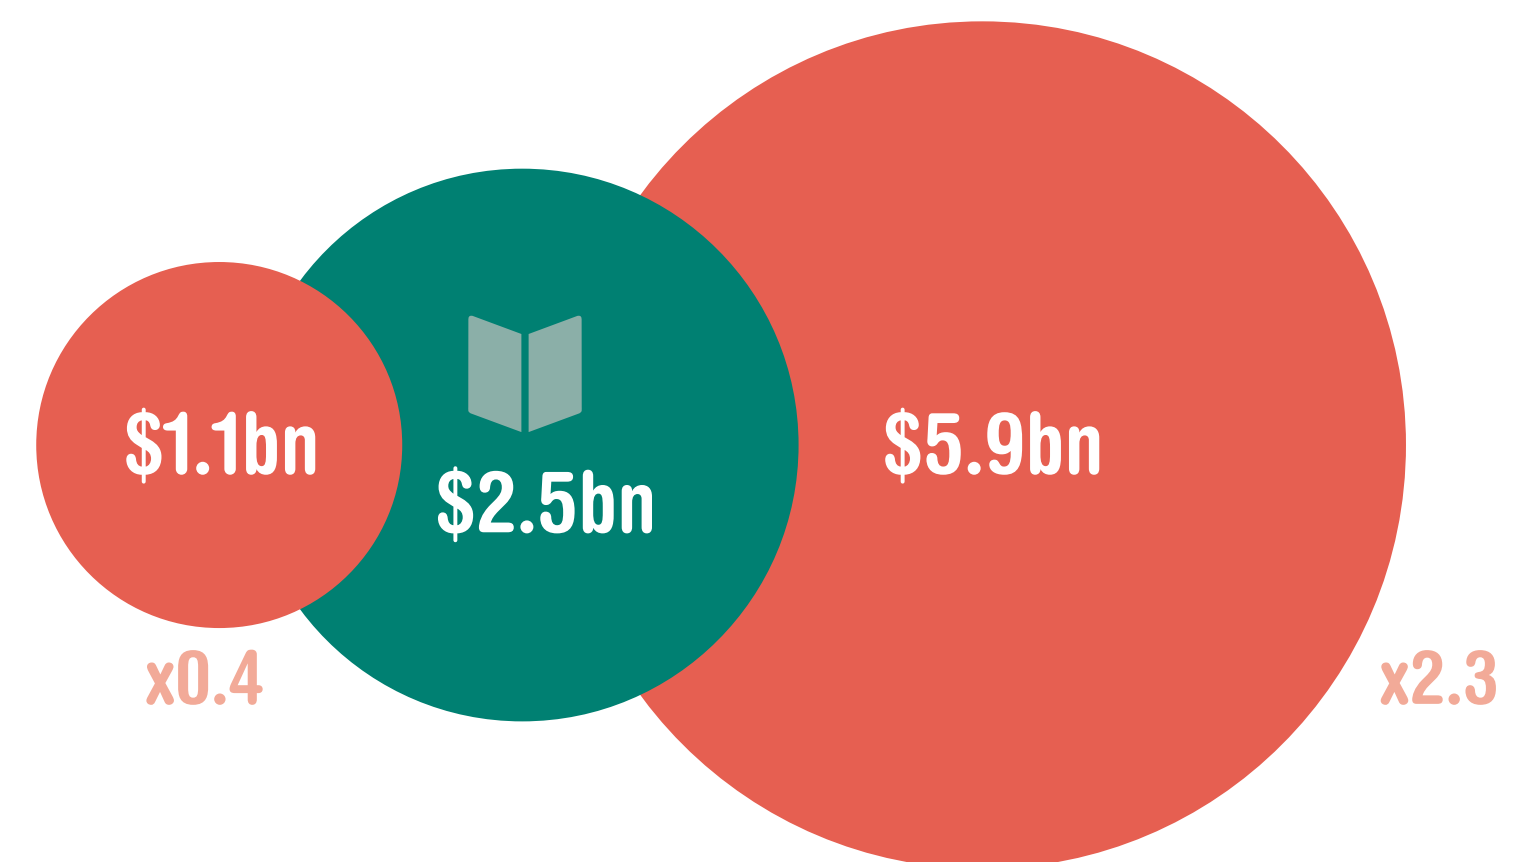

\*calculated assuming ODA levels remain constant at the 2018 level

## This type of investment primarily flows to banking and finance, industry and energy sectors

This represents between nearly half to over double the \$2.5bn\* basic education spend

\*based on 2018 bilateral aid spend on basic education
